Who we are

Foxmula is an EdTech company, more than just an e-learning platform, addressing issues of Unemployment, lesser access to industry-oriented learning, stress around career building, and learning breakdowns with a communitydriven ecosystem. Along with life-long networking in the community, Foxmula categorizes its user involvement in 2 ways - Profile building programs and guaranteed job program.

Profile building programs, as of now, include high in demand domains like Deep Learning, Data Science, node.js, Machine Learning and many more. All these programs have three basic pillars of Training, Certification, and work program, FoxmulaX, focuses beyond developing just a job-ready profile for the user and guarantees a Job post a 3 months Bootcamp.

We don't look for a one-time involvement with our users but make them feel at home while they take their time to explore, learn and build a career. We then look forward to a life-long involvement from them for up-skilling (job upgrades), community networking, and being mentors to the fellow Foxes. With Foxmula Student Chapters in colleges, Online Community, our growing offline centres in different locations and products/software in line, we aim to be a fun ecosystem, even for those who are not yet comfortable with technology and e-learning. Or who can't access them.

All this in order to change the way world perceives education, learning, and workforce by ensuring the feeling of fulfillment, belongingness, and security towards education and career among our users. And you will be joining the team to spread awareness, meanwhile benefiting yourself with the skills and recognition letters for communication, networking and marketing along with financial allowances.

Why profile building?

Instead of blindly committing time and money for a long period to learn a skill professionally, which is 'high in demand', one should try taking a taste of it with industry-oriented training (skills), global certifications (Recognition) like Microsoft Technology Associate and internship (Exposure). After these three phases in the chosen domain of interest/curiosity, which takes on an average 2-3 months in a self-paced manner, one would be able to decide if he/she wants to continue in it further for a career, based on his/her understanding.

If not, why force it. There are a lot of cutting edge domains to look up for a career, where one's talent can flourish naturally and efficiently.

How **it works**

1 TRAINING

- **Starts from Scratch**
- Live sessions on weekends by working professionals
- Industry-oriented self-paced sessions & Study materials
- 24x7 dashboard access & networking in the community

CERTIFICATIONS (EXAM)

- Schedule your own Exam, whenever feasible
- Online basic MCQ Exam(s)

2

Microsoft Technology Associate

3 INTERNSHIP (WORK FROM HOME)

- Project selection from the Dashboard
- Small parts of live industrial projects
- **Internship Completion letter on submission**
- Can be done in group

DURATION

- **On an Average it takes 1-2 months to complete the program.**
- **You'll be getting 6 months access**
  to complete it all at your own pace and feasibility

Available Modes and deliverables ➡

*student just have to pay first **$20** to start the program, remaining amount can be paid next month.

MODES ↓	TRAINING VIDEOS	CO-BRANDED CERTIFICATION	INTERNSHIP	MTA CERTIFICATION	LIVE MENTORSHIP	PRICE
Lite	✔	✔	✔	�‎✗	✗	$50
Self-paced	✔ 25–35 Hours	✔	✔	✔	✗	$80
Hybrid	✔ 25–35 Hours	✔	✔	✔	✔ 16 Hours	$100

Available **programs**

● **Machine Learning using Python**
Modes Available:- Lite, Self-paced and Hybrid

● **Cloud computing using Azure**
Modes Available:- Lite, Self-paced and Hybrid

● **Cyber Security**
Modes Available:- Lite, Self-paced and Hybrid

● **Web Development using Node.js**
(HTML, CSS, JavaScript, node.js and more)
Modes Available:- Lite, Self-paced and Hybrid

● **Networking Administration**
Modes Available:- Lite and Self-paced

● **Advance Web Development using react.js**
Modes Available:- Lite and Self-paced

● **The complete Java Course**
Modes Available:- Lite and Self-paced

● **Deep learning using Tensorflow**
Modes Available:- Lite and Self-paced

● **Data science and analytics using R**
Modes Available:- Self-paced

● **UI Development**
Modes Available:- Self-paced

Payment Options

- foxmula.com accepts direct registrations in India only. **foxmula.tech** is to felicitate registrations from other countries

- **On foxmula.tech**, to register for the chosen program, students need to pay first $20 and the program will start. Remaining amount is to be paid next month.

- While registering, students can use Ambassador code (if any), to **Avail $10 OFF on the remaining fees** which is to be paid next month.

- **STEP 1:** Go to *foxmula.com* and create an account (Signup) in Foxmula-Y
- **STEP 2:** Go to *foxmula.tech*, select a program and proceed to register

INTERNSHIP COMPLETION LETTER

We are glad to inform you that Ms.**Princee Dey** from **Vellore Institute of Technology, Vellore** has successfully completed her internship at Foxmula under **Inversion Consultancy LLP** from 4th January 2020 — 4th March 2020.

During her internship, she was exposed to the various activities in the Machine Learning domain using Python, implementing Regression, Neural Networks, Recommendation engines, and many other skills. We found her extremely inquisitive and dedicated. She was very much interested in getting into the depth of the subject to understand it better.

Her association with us was fruitful and we wish her all the best in her future endeavors.

With Regards
